# Tutorial Overview

## Skills To Be Acquired

The following points will be explained in detail in this User Guide

- ✔ Create and manage projects
- ✔ Share your projects
- ✔ Create an alert on your existing projects
- ✔ Create an alert from the result list

## Skills Recommended For A Better Understanding

You may need preliminary knowledge to better understand this User Guide. Please check the following list of skills to self evaluate your level of knowledge.

- ⚠ [Define Your AOI](#)

## Useful Related User Guides

You may want to learn more about the use of GeoStore. Please check the following User Guides to enhance your GeoStore experience!

- [How To Search For Archive Products](#)

Any questions? Please check our [FAQ section](#) from the GeoStore homepage

## Go To The Map

Go to [www.geostore.com](http://www.geostore.com) in your web browser. We recommend Mozilla Firefox or Google Chrome: check for [supported versions](#) below the Questions and answers section.

Click on  **Buy**

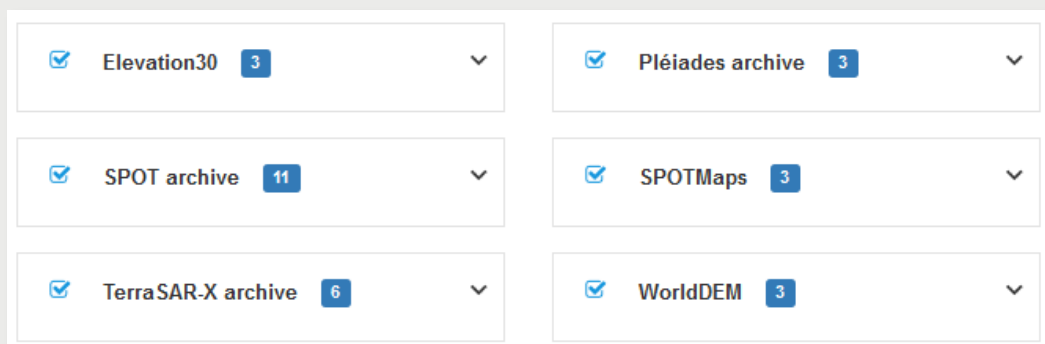

from the GeoStore home page if you plan to order archive products, then ...

Click on  **Login**

and enter your e-mail address and password

## Select The Products To Search

Click on  **Products** and **tick** the required products and validate with OK

## Select Your Search Criteria

Click on  **Criteria**

Enter your search criteria (Acquisition Range, Resolution, Incidence Angle, Cloud Cover, Snow Cover, Polarization, Path direction, Look direction)

*You can change your search filters (products and criteria) at any moment using the banner at the bottom of the map. Hide and display the banner with*

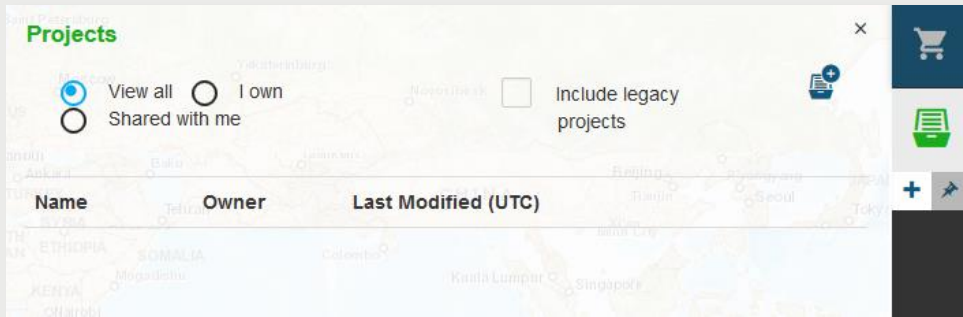

Any questions? Please check our [FAQ section](#) from the GeoStore homepage

# Create A Project

Click on

on the right hand side of the map to create your projects, to open your saved projects or to open projects shared with your partners and coworkers

Select **View all** to display all the projects within your organization

Select **I own** to display only the projects created by yourself

Select **Shared with me** to display the projects your partners are sharing with you

Tick the box if you want to include the legacy projects (i.e. projects from the former GeoStore version)

Click on  below the project icon or on  to create a new project

Enter a name for your project (mandatory) and describe its content as a reminder or as a comment for your partners and coworkers

Once created, you should see the  turn into  on the right hand side of the window and the message **Project updated** displayed on the map

Once a project is loaded, a project management toolbar appears at the bottom of the map

Click on  below the project icon to display or hide this toolbar

Any questions? Please check our [FAQ section](#) from the GeoStore homepage

## Manage Your Projects

- Click on  to delete an existing project
- Click on  to restore a previously saved project
- Click on  to display information related to your project
- Click on  to disable an [alert](#)
- Click on  to enable an [alert](#)
- Click on  to [share a project](#)

*The current project you are working on is underlined in green in the projects list*

Click on  to save or update your project. By doing so, your filters (products and criteria), AOI(s) and WMS flows will be saved for the current project.

Every time the project is restored, a **new search is launched with your saved search filters.**

*There are three ways to save or update a project: from the toolbar located at the bottom of the map, from the right hand side window under the project icon or from the project menu, under the Create a project button*

**Find more about handling WMS Flows in the dedicated User Guide : [WMS Flows](#)**

Any questions? Please check our [FAQ section](#) from the GeoStore homepage

# Share Your Projects

Click on  from the project list to share your project with other GeoStore users

**Information**

**Project Details**

Name: Archive Search - SPOT 6/7 South of France

Description:

Owner: GeoStore Demo

Creation date: Jun 3, 2016 11:56:58 AM

Last modified: Jun 3, 2016 11:56:58 AM

**Alert detail**

**Share Project**

## Create an alert

Click on

in the result panel to set up an alert according to your filters (selected criteria and products) on the current AOI. As soon as a new data matching your filters is acquired you will receive a notification email. When you set up an alert a project is automatically created. Give the alert an explicit name to find it back in your projects.

Create an alert x

Receive an email notification as soon as new data intersects my AOI.  
Check performed every day.  
Your alert will be visible in the project menu.
